General Guidelines

Educators must provide warm, nurturing, interactions on the child's level. Direct supervision of all children is expected at all times. Failure to provide supervision will be subject to discipline up to termination.

State ratios are important indicators of quality. The Center strives to uphold state ratios at all times. Please ensure that you always adhere to the state ratios and that you receive additional help when the number of children approaches over the limit. Ratio adherence is a dual responsibility between teachers and management. Never leave your group, and ensure that the total number of children in attendance does not exceed the state ratio.

Confidentiality

Due to the sensitive nature of information that you will receive as a teacher of young children, it is imperative that you keep all sensitive information confidential. Exercise caution when discussing children's developmental needs and family information, especially in public areas. Major concerns are to be forwarded to the Director. Protection of the interests of each child and family is vital in maintaining a standard of professionalism and privacy.

Curriculum

We utilize approved curriculum on a daily basis, providing all teachers with the guidelines necessary for developing age-appropriate learning activities for children.

Accidents

All accidents must be reported to the Director or Assistant Director immediately. Incident/"Ouch" reports must be reviewed and signed by both the parent and Director. Close supervision of children is the best anecdote to accidents. Utilize risk management to keep the environment safe and hazard-free at all times. The Center

strives to provide the best equipment, kept maintained and in overall sound working conditions to ensure the safety of children in all classroom or playground areas.
